DISSEMINATION AND OUTREACH WORK

As part of the dissemination effort, over the last years I had four of my courses at IMPA entirely recorded, in a total of 100 lectures of 1:30h to 2h each. These are on the IMPA channel at youtube.com (<https://www.youtube.com/user/impabr>), available for free to the general public.

- 2015 Harmonic Analysis (Ph.D.) - 30 lectures.
- 2015 Analytic Number Theory (Ph.D.) - 20 lectures.
- 2013 Hilbert Spaces of Entire Functions (Ph.D.) - 25 lectures.
- 2011 Partial Differential Equations (M.Sc.) - 25 lectures.

Before going to the U.S. for my Ph.D., I was a high school teacher for almost seven years in my hometown of Fortaleza, Brazil. I served at the Brazilian Mathematical Olympiad Executive Board (from 2000 - 2016) and I was a member of IMO 2017 Problem Coordination. Every year I deliver several lectures aimed at undergrads, high school and middle school students.
